

# National Association of Orthopaedic Technologists

---

Dear ASOA Member:

We are happy to welcome you to the National Association of Orthopaedic Technologists (NAOT), and embrace you as part of our membership. NAOT is enthusiastically looking to moving forward with the completion of the ASOA membership transition into NAOT.

Both ASOA and NAOT have proven their dedication to the allied health community and patient centeredness approach by creating organizations that provide professional and personal development, continuing education opportunities, certification benefits for our members, access to a network of “Best in Class” innovation and research vendors and recognized as respected experts in the healthcare community. The addition of ASOA to NAOT adds an additional level of orthopaedic knowledge and expertise, raising the bar for professional development and education of all members.

As a member of NAOT, you will have access to all the benefits offered:

- A complimentary membership with NAOT through 2016 – To offset the price difference of membership cost between ASOA and NAOT, you will receive a membership through December of 2016. After 2016, membership will be \$100/annually.
- An e-subscription to Orthotech Professional newsletter – The Orthotech Professional features educational articles relevant to orthopaedic fields, has information pertaining to upcoming events, and other general information relevant to the Association.
- Reduced registration at NAOT Annual Symposium – NAOT’s 34th Annual Clinical Symposium will be held in Jacksonville, Florida on July 13 – 16, 2016.
- Reduced registration at NAOT Casting and Splinting Skills Workshops & Orthotic Fitter Courses – These workshops are held in multiple locations across the U.S. and are a great way to earn some extra CMEs.
- Access to member-only Virtual Seminars – NAOT holds several Certification Examination Prep Webinars throughout the year.
- Access to the member-only Forum on the NAOT website – The Forum provides an area where members can ask fellow orthopaedic professionals questions and share their latest tips and tricks.

If you are interested in leadership opportunities, please review NAOT’s current list of committees. Feel free to contact the committee chairs if you would like to know more about a specific committee and its focus.

Again, NAOT extends a warm welcome to you as a member. If you have any questions regarding your membership, or the Association, please contact the NAOT office.

Sincerely,

Sean Conkle, OTC  
NAOT President

Tim Witzigreuter, OPA-C  
ASOA President
